## About This Game

Adore is an action Roguelite where the main character can summon and control creatures to fight by his side, but in a simple and innovative way

### CUSTOMIZE YOUR PLAYSTYLE

In Adore, you can customize your game style according to the creatures you capture. Each of them has very different characteristics and abilities. Ranging from more fragile creatures, however, with high damage; slow and enduring or creatures with higher control abilities like stun and freezing.

### CREATURE BOND

You have to be very careful when invoking creatures. Since you have a strong bond with them, and if they are dealt damage, you also suffer. They are as precious as your life.

### SPECIAL ABILITIES

Each creature also has a Special Ability that can be used when its energy bar is full. The player has to analyze if it is the best moment to use the special ability or try to save it to a situation where it would be more effective.

### RANDOM GENERATION

---

Each run is a new experience. In addition to the map, all creatures, items and upgrades are also randomly generated. Encouraging the player to always adapt, explore, try new compositions and different combos.

## **STORY**

Adore's story begins shortly after Lukha's village is attacked, and as one of the last survivors, he must warn all other Adorator villages about the onslaught of the Established Kingdoms. In his way, he discovers not only many secrets of the immense and mysterious forest of Gaterdrik, but also, a conspiracy to kill the God of the creatures: Draknar.
